Student Inspection Requirements

The student must inspect every item at issuance and check each item received. Electronics must be inspected and tested to confirm they are present, functioning properly, and free of visible damage. Polish, gel, liquid, and other consistency-sensitive products must be inspected for acceptable consistency and condition. Any missing item, visible damage, defect, malfunction, or unacceptable consistency must be reported immediately, before the student takes possession.

Acceptance & Replacement-Only Terms

Once the kit has been inspected and accepted and possession has transferred, the student is responsible for possession, care, handling, storage, maintenance, loss, damage, contamination, misuse, or depletion. After possession is accepted, the only option for an item requiring replacement is replacement at the school's then-current replacement value, paid in advance. No exchange, refund, return, or credit is provided after possession is accepted, except as otherwise required by applicable law.

Clinical Community Supplies & Equipment

Any remaining balance of the student's applicable supply/materials fee not allocated to the Immediate Student Take-Home Kit is applied toward the student's use of shared clinical community supplies and equipment during the clinical portion of the program. These resources remain school property and are not individually issued as take-home property.

Student Acknowledgment & Classroom Submission

By signing below, I acknowledge that I received and inspected each listed item, including the electronics and consistency-sensitive products, and had the opportunity to report any issue before accepting possession. I understand the replacement-only, advance-payment terms after possession is accepted and understand that the remaining applicable supply/materials balance supports my use of shared clinical community supplies and equipment during the clinical portion of the program.

After completing the inspection and signing this acknowledgment, upload the completed form to the appropriate classroom assignment/tab as instructed by the school.

Payment Options for Replacement Items

Replacement items must be paid for in advance. Payment may be made by **cash at @Perfect10NailSchool**, or by **credit card or cash** through the school.

Student Name (Print): _____

Student Signature: _____

Date: _____

CLASSROOM IMAGE ACKNOWLEDGMENT: A classroom image documenting the issued kit may be submitted as additional documentation of receipt and inspection; the signed acknowledgment above records acceptance of the kit and these terms.
